Founded in 1992 by the Lake Highland, Park Cities and Lakewood Exchange Clubs

Through the Child Abuse Prevention (CAP) Center, many parents and professionals have found a path to an experience or opportunity that has made the difference of a lifetime. Our Center seeks to develop local partnerships to support Center programs.

Through planned giving, such as a will or trust, you can continue to help make a difference for those who follow...

- **Continue the good work** of those who came before you by supporting a home mentoring or educational program. For example,
 - Parent Aide Program:** High-risk parents learn and practice healthy and effective discipline techniques, build strong parent-child relationships and are linked to community resources and primary medical providers.
 - Healthy Families Program:** Pregnant and parenting teens learn positive parenting techniques, the importance of maintaining well child visits, completing high school, pursuing higher education and obtaining employment.
 - Families First Program:** Parents learn the effects of divorce on their children and strategies to promote positive parenting during this critical time.
 - Community Education:** Our center offers educational classes on the prevention of child abuse, teen dating violence, Shaken Baby Syndrome (SBS) and Sudden Infant Death Syndrome (SIDS). Education is provided to local schools for teachers and students, child care providers and community organizations.
- **Provide new opportunities** by creating a special endowment.
- **Support a special need** by designating a specific project.
- **Provide a legacy** by giving an unrestricted gift.

Planned giving can provide a legacy of support in the future while allowing you to:

- **Protect your current income**
 - Gifts that are made in support of the CAP Center by naming the CAP Center as a beneficiary in your will or trust. Your bequest is not subject to estate taxes and will help reduce the tax liability for your heirs.
- **Maximize tax benefits today**
 - Donate your residence or vacation home to benefit a CAP Center program through a "remainder interest" deed to the CAP Center. Enjoy it fully for the rest of your life and get a tax deduction now!
 - Contribute your appreciated assets such as stocks or life insurance and realize important tax benefits while supporting worthy programs.

Plan to leave bold footprints!

- Because of the support of friends like you, the CAP Center successfully continues to lead those in need in better directions. Yet, there is still much to be done. **Your assistance is needed today so that others may find their path tomorrow.**
- **Many worthwhile funds can be established**, such as the Erin Olson Scholarship Fund, established in 2006 to provide education scholarships for CAP clients to assist in furthering of their education.
- **To select a program or to create a fund of your own**, contact our office. We can work together to help you choose or tailor a fund that will reflect your principles and carry on your special hopes for others. **Your confidentiality is always respected.**

By planning today, you can help lead the way for Dallas citizens to follow.

- Your gift can support an individual program or general operational expenses of the Center.

We can send more detailed information about wills and estate plans or we will be glad to talk with you personally. Call 214-370-9810 ext. 101, send e-mail to jtrudeau@childabusepreventioncenter.org, or visit us at:
